Re: Keith Ross Contracting and David Elpi dba Sisters Forest Products

To Whom It May Concern:

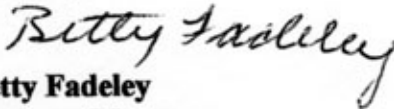

We are a subdivision outside the city of Sisters, 440 ½ acre lots and 125 acres of common area.

We were fortunate to have selected Keith Ross and Dave Elpi to treat our common areas for the National Fire Plan and Senate Bill 360 Fire Fuel Reduction Act. We were extremely pleased with the project results. They were very professional and reliable, performed the work in a timely manner, paid great attention to detail, worked well with our employees, related professionally to our property owners concerns, ground disturbance was held to a minimum, very thorough clean-up and removal of thinning debris and their contract pricing was competitive. They have also privately worked for many of our property owners with great results.

We would recommend them highly for any of your forest management needs.

If you are in need of any additional information or clarification, please do not hesitate contacting me.

Sincerely,

**Betty Fadeley
Business Manager**
